

Immunization School Survey Assessment (ISSA)

Survey Year
2010-2011
Complete with
100% Participation

Thank You
School Nurses!

ISSA UPDATES & UPCOMING EVENTS

- The Colorado Department of Public Health and Environment (CDPHE) and The Colorado Department of Education (CDE) collaboration yields new survey methodology that complies with both State and Federal Laws.
- **Survey 2010-2011 Complete—Results Coming Soon**
- **Survey 2011-2012 Information Available Fall 2011**
- The CDPHE Immunization Program is sponsoring the Colorado Association of School Nurses (CASN) Conference this November, 2011!

Goal of this Project:

To provide valid vaccine coverage estimates and exemption rates for all individual vaccines included in the current Colorado Board of Health Rules (DTaP; MMR; Polio; Hepatitis B; and Varicella), for Colorado's kindergartners.

Achieve the Healthy People goals of having individual vaccine coverage rates at 95% or higher for children entering school. Data can be used as first step in the effort to develop methods to increase number of children who are up-to-date on their immunizations at school entry

The collaborative efforts of school nurses and the Colorado Immunization Program will help to keep the children of Colorado Healthy!
